Carl Nelson —

Mr. Nelson,
It's been a great year and you've helped make it greater. When I'm in traffic court I'll tell them Carl Nelson sent me. He taught me how to drive. All kidding aside I think you're the greatest teacher as well as bus driver in the world. Best of luck in your future years and there will be lots of em. Just remember me as a big loud mouth.

Love and kisses
Del
Manning Jr.

Mr Nelson,

ADMINISTRATION

"Under the big top!" is a good theme for this year—our last as a one high school district. Next year the tent of the union district will cover Old Fullerton High School which we love so well and La Habra High School for ninth and tenth grade pioneers from La Habra and Lowell. Shortly we'll have another feature attraction at Buena Park for students from Buena Park and Orangethorpe.

May our growing district remain always friendly, dedicated through union to a finer education than any portion of our area could achieve without cooperative support of all. May we continue to strive for good citizens, responsible, clean in thought and deed, spiritual in outlook. May we have vision to chart paths for the future, and courage to go forward.

May we never let the side show distract us from the center ring.

Good luck in all you do.

Sincerely yours,

Stanley Warburton

We who have the privilege of occasionally writing or speaking to you, often emphasize the serious side of life. We should, however, not overlook the part that fun and humor play in successful living. Don't depend on T.V. comedians to give you all of your laughs. Your own sense of humor developed with kindness and consideration for others is an important part of any prescription for mental health. The quotation from Proverbs, "A merry heart doeth good like a medicine" is just as valid now as it was before the time of Christ. In our complex society life becomes something of a three-ring circus with different activities demanding attention all at the same time. To keep one's poise and sense of proportion let one of these three rings always feature the lighter, brighter side of life. Let our laughter be the result of "doing what comes naturally."

Glenn H. Lewis

Playing daily to capacity crowds, The Greatest Show On Earth opened under The Big Top in September complete with performers, trainers, ringmaster, construction crew, clowns, wild animals, blaring bands, the smell of popcorn, and the grandstand populace looking on in excited anticipation.

There are many and varied people among our performers. Most of them are hard workers who realize the training necessary for peak performance. There are always several who walk a tight rope, and a few who wear the painted smile of a clown to cover an aching heart. Then there are those who find the pace too much for them and leave the show.

It's a mad, gay, fast-paced life of sawdust and tinsel, happiness and heartbreak, practice and performance—it's a three-ring circus complete with the tradition that, until the season ends in June, The Show Must Go On.

My helper
It's been nice having
you for a teacher this second
semester. I hope that you've
rounded some learning nuts
although it would be hard. I've
learned alot about cars and driving
this semester. This has been one
of my most interesting classes
Good luck in the coming
years. (Bonne Chance)

It has in all truth been a circus, with everyone on the annual staff a top-notch performer. We have only one performance to present to you and that is the 1953-1954 Annual. You will see only the polished acts but we have seen the work and time each member of our staff has put into this annual and we'd like to express our sincere thanks and appreciation to each of them for the performances they have given this year. Our advisor, David Inglis, deserves a hearty thanks for his wonderful guidance and help.

To the following people and companies we'd like to say "Thanks a million, it's been great working with you!"
